Gero 494: Emotion–Cognition Interactions and Aging – How do our brains make us happy or miserable throughout our lives?

MAY 13–17 ON CAMPUS
MAY 19 – JUNE 1: IN ISRAEL
REGISTER WITH SPRING 2024 SCHEDULE OF CLASSES!

Field Trips Include:
- Old city of Jerusalem
- Western Wall Tunnels
- Masada & Dead Sea
- Yad Vashem: The World Holocaust Rememberance Center

Somehow our brains construct our emotions. Two people experiencing the same event can have quite different emotional experiences. What are the brain mechanisms that make us happy or sad? How is that some people suffer emotionally the rest of their lives after experiencing a traumatic event whereas others are resilient? How do these processes change as we get older?

Explore these questions to discover how our brains make us happy or miserable throughout our lives!
