

Maymester Abroad in **SOUTH KOREA**

Gero 499: The Science of Longevity:
A Sociobiological Analysis of Aging
in South Korea and The United States

—Dr. David Lee

WEEK 1: MAY 18–22 ON CAMPUS

WEEKS 2–3: MAY 25–JUNE 6 IN SOUTH KOREA

REGISTER WITH SPRING 2026 SCHEDULE OF CLASSES!

Field Trips Include:

- UNESCO World Heritage Sites:
Changdeokgung Palace & Andong
Hahoe Folk Village
- Nursing home tours & volunteering
opportunities
- Immersive experiences as older
adults

Travel to South Korea to explore how culture, policy, and lifestyle shape longevity—through expert talks, hands-on culinary experiences, and visits to historic and modern sites.

From the world's longest life expectancy to the lowest fertility rate, discover how this rapidly aging society is redefining the future of healthy aging!
