

# Social Media 101

## Twitter and LinkedIn

*Presented by the Communications Team*

April 2018

# Agenda

1. Why use these channels?
2. Twitter Statistics and Features
3. Linkedin Statistics and Features
4. Q&A

# Twitter

**Ken Covinsky** @geri\_doc · Mar 27

Major study of sodium excretion (measure of dietary sodium/salt intake) excluded persons age 70+ How is this possible? Unacceptable! @CDCgov: Please explain #Ageism I can think of no good rationale for this exclusion This has got to stop #geriatrics [ja.ma/2Ggzix8](https://ja.ma/2Ggzix8)

### *The Clinical Trial Is Open. The Elderly Need Not Apply.*

**Paula Span**

THE NEW OLD AGE APRIL 13, 2018

He did a double-take. Once again, the population probably most affected — older adults — had been left out of an important study.

“How is this possible? Unacceptable!” Dr. Covinsky protested on Twitter. “I can think of no good rationale for this exclusion. This has got to stop.”

# Twitter-only conferences can have global impact

The UK's first-ever Twitter-only teaching and learning conference shows academic symposia with international reach can be organised on a shoestring, say Natalie Lafferty and Pat Lockley

## Tweeting Your Way to Tenure

American Sociological Association report suggests standards by which departments may consider social media activity and other public communications in tenure and promotion decisions.

# "Twitter ripples"

- Paula Span

# Twitter Statistics

**330 million**  
monthly active users

**261 million**  
international users

**~500 million**  
tweets a year

**2 billion**  
Search queries daily

**80%** of active  
users are on mobile

**42%**  
use Twitter daily

**74%**  
use Twitter for news  
(highest ranking among all  
social media channels in  
2017!)

**User base:**  
**36%:** 18-29 years old  
**22%:** 30-49 years  
**23%:** American adults  
**28%:** Americans with  
college degrees  
**25%:** Journalists

# Twitter Statistics

**2X**

engagement rates  
for tweets with  
images than without

**2X**

engagement rates for  
tweets with hashtags  
than without

**30%**

higher interaction  
between **8am-7pm**

**More tweets per  
day correlates with  
less engagement  
(Quality > Quantity)**

# Why Use These Channels?: Twitter

- Removes the gatekeepers
- Less work than blogging
- Networking and developing new relationships with researchers from various fields
- Fast means of communicating news
- Increases readership and discussion of your work
- Following events you can't attend (#HASHTAG2018)

# Features: Twitter

## Tweet

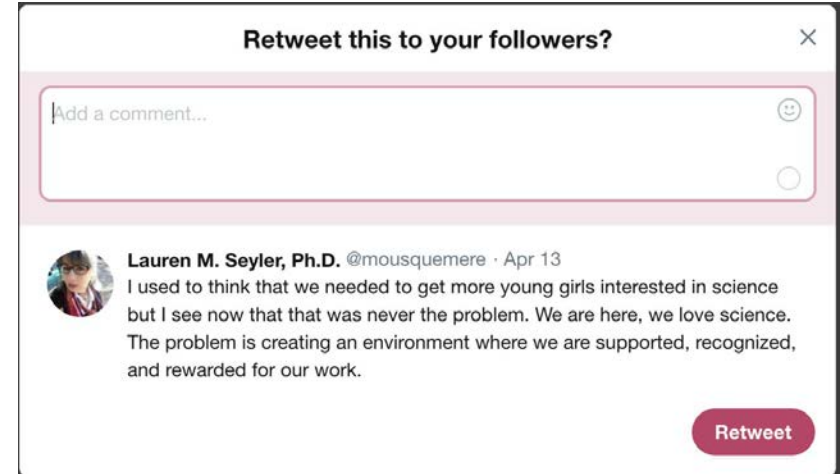

- A post containing photos, videos, links, GIFs or text
- 280 characters or less
- You can include up to 4 photos, a GIF, or a video

## Retweet

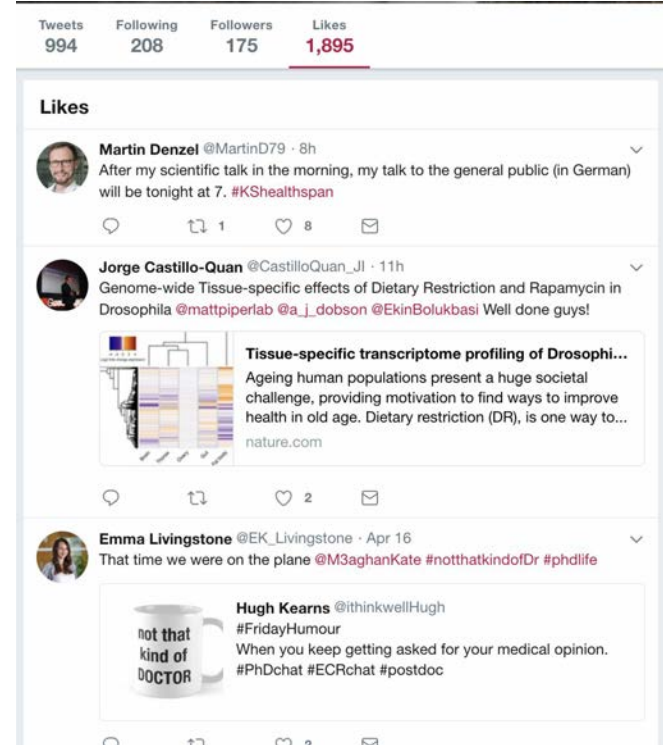

- Sharing someone else's tweet with or without comment

## Like

- Serves as a bookmark (e.g. to-dos, read later, etc.)
- View a user's likes on their profile

## Hashtag (#)

- Specific keyword used to tag tweets with the # symbol
- Useful for events and topics

## Mention (@)

- Referring or responding to a user
- Will link to their account
- If someone you don't follow mentions you, it will NOT be posted on your timeline, but you will be notified

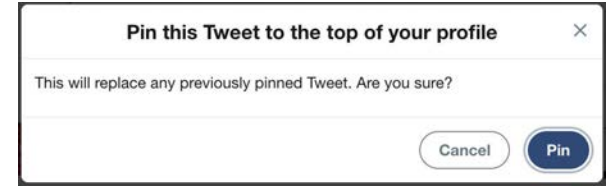

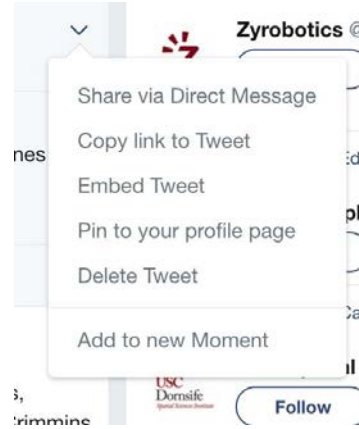

## Direct Messaging

- You can accept or decline messages from users you don't know

## Pinning Tweets

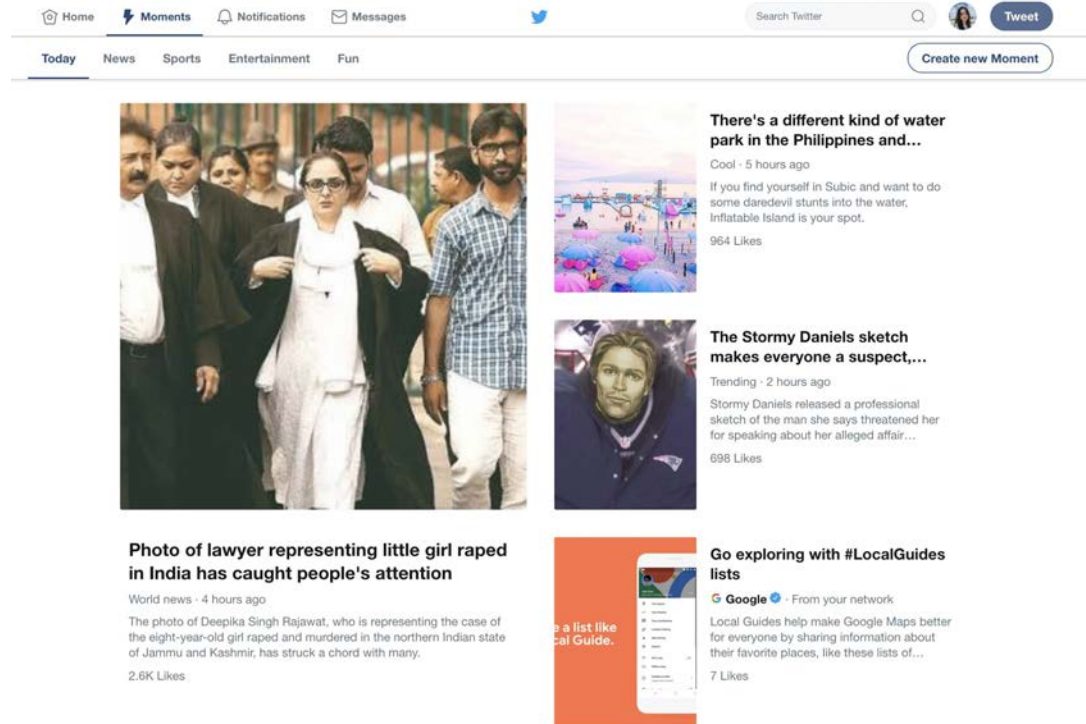

- Pin your tweets or retweets to the top of your profile feed
- If retweeting, you must add a comment

## Moments

- Curated tweets from general categories
- Slideshow of different tweets stitched together
- Displayed on profile

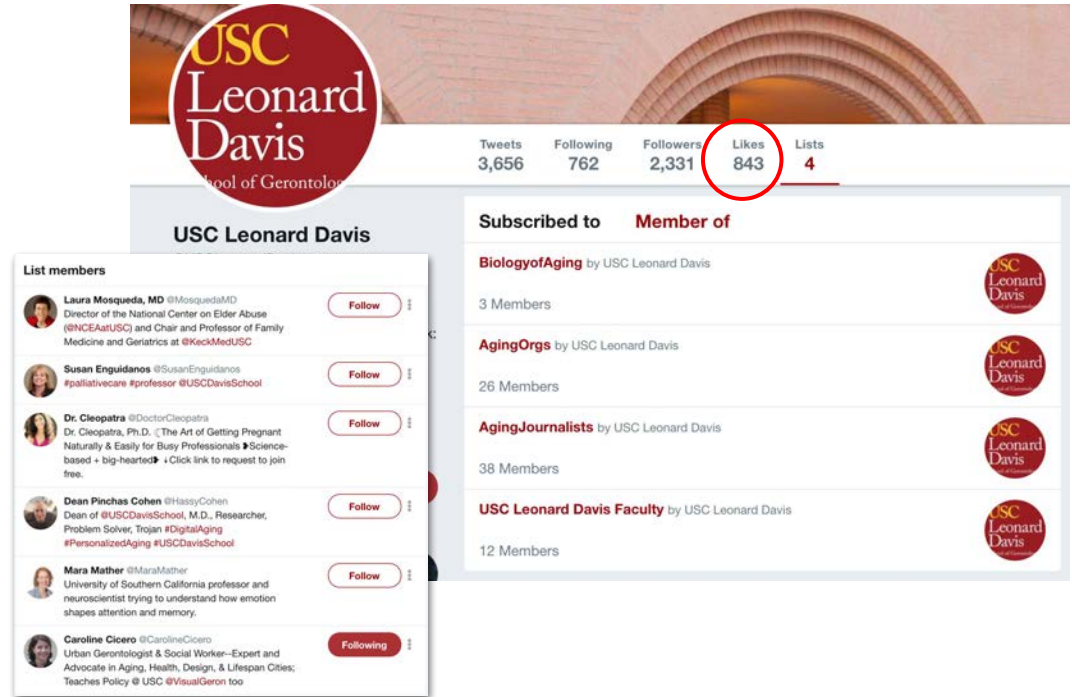

## Lists

- A way of segmenting / identifying interest-based groups
- Follow updates of a group organized by topic, category, or other common denominator
- Public / private lists

## Examples:

- [Aging Journalists](#)
- [Aging Orgs](#)
- [USC Leonard Davis Faculty](#)

# Additional Features & Resources: Twitter

- [Advanced search](#)
- [Analytics for the last month](#)
- [Scheduling for tweets](#)
- Embed your profile into websites
  - (e.g. <https://gero.usc.edu/labs/benayounlab>)
- [Help Topics](#)
- [How Academics can use twitter](#)
- [15 Indispensable Academic Accounts](#)
- [Twitter-only conferences can have global impact](#)
- [Tweeting your way to tenure](#)

# LinkedIn

# LinkedIn Statistics

**250 million**

monthly active users

**133 million**

Users are from US

**40%**

of users on  
LinkedIn daily

**40 million**

Students and  
recent grads

**57%**

users are mobile

**1 million**

users on Publisher;  
130K posts shared  
weekly

**70 million**

unique SlideShare  
visitors monthly

**38%** of all users are  
millennials (ages 18-34)

# Why Use These Channels?: LinkedIn

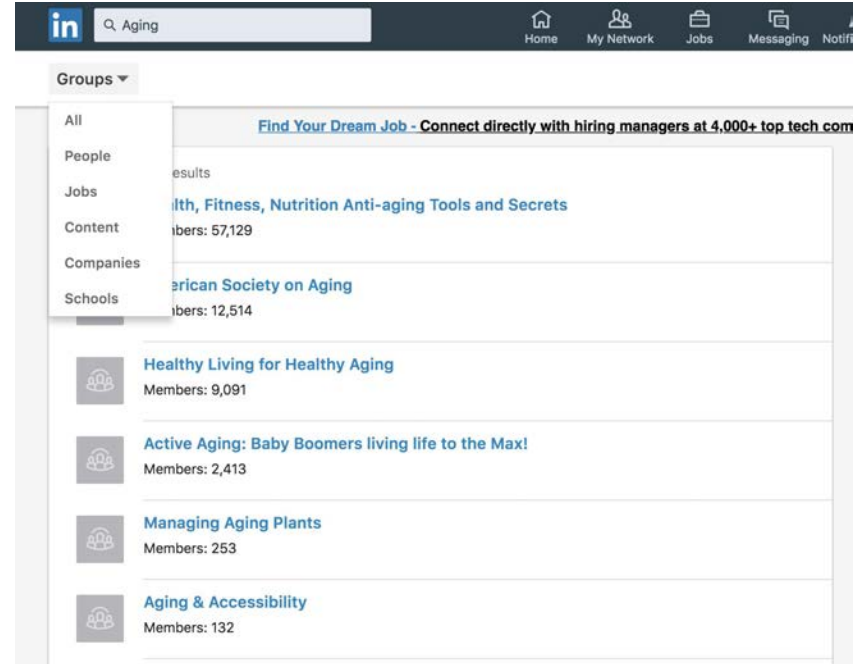

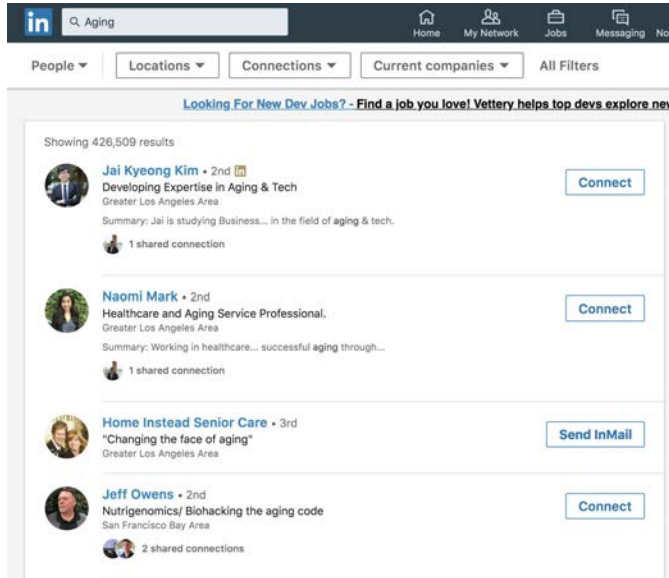

- Provides a network in both academia and outside in industry
  - Sites like Researchgate create a distinction between scientists and other people when reality is more fluid
- Takes minimal time to update
- Great networking and recruiting tool
- Form new connections through Groups

# Features: LinkedIn

## Unified Search experience

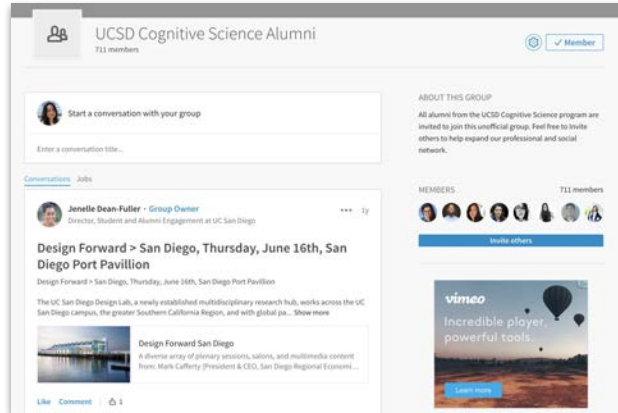

- People, jobs, posts, companies, groups

## Groups

- Communicate with people you aren't connected to

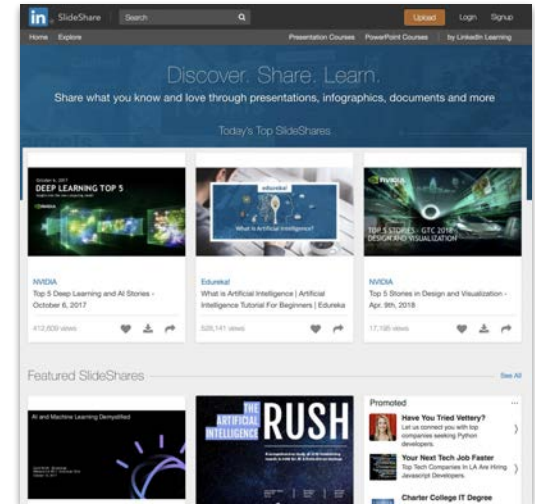

## Publisher

- Blog form that allows you to publish and share articles (Think wordpress + facebook)
- 1 million users; 130K posts shared per week

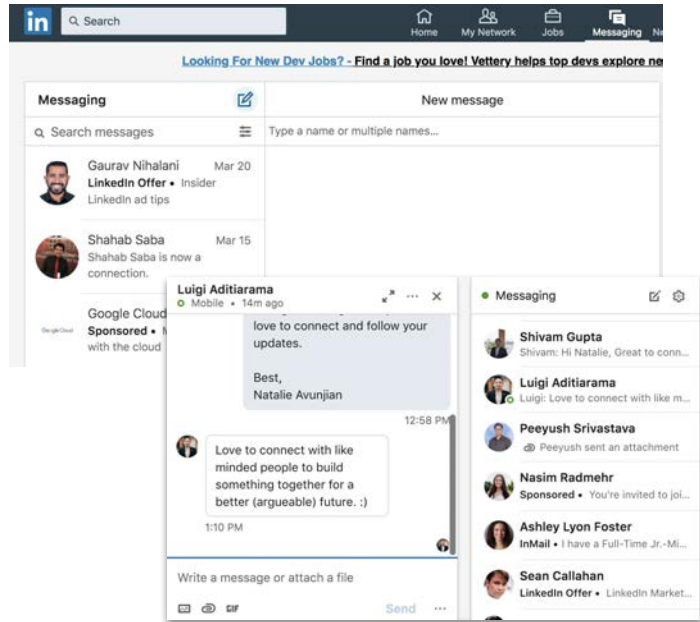

## SlideShare

- LinkedIn's presentation channel
- Reaches 70M unique visitors a month
- Among top 100 most-visited websites in the world
- Login with LinkedIn

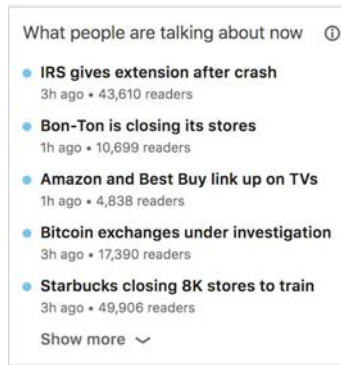

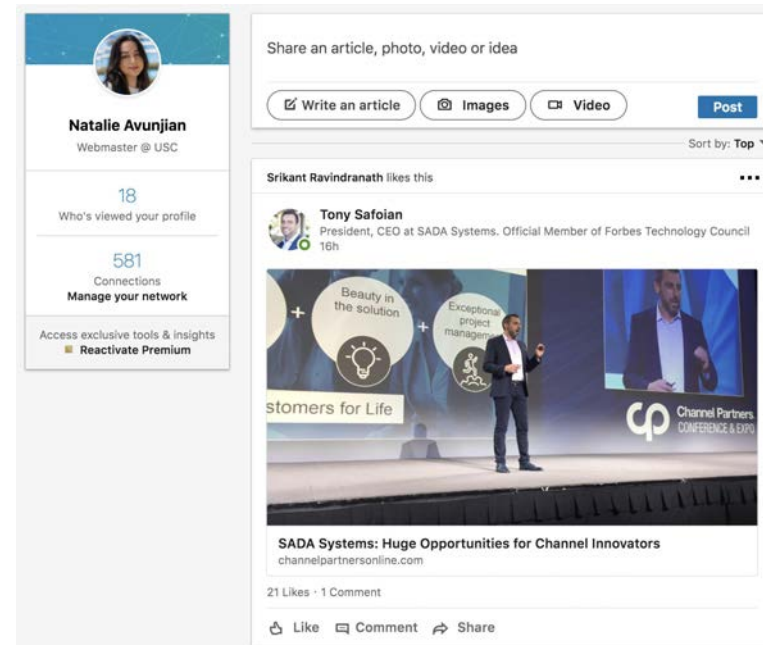

## Chat / Private Messaging

## Trending news topics

## Activity feed of connections
